From the London Globe of Sept. 14th. Our readers will be happy to learn that the I ritish Government in conjunction with that of France, have servants at the mouth of the Peiho. This is a course the Governments of England and France are completely in accord with the the national feelings of the people of

The fuller accounts from the Peiho river and from Hong Kong rather augment than diminish our appreciation of the serious character of the murderous attack manifest than ever, and all the parratives tend to show either the malice or the importance of the Imperial Government. In either case we can only hold the Imperial Court responsible for the atrocity perpetrated by its servants. Mr. Chisholm Anstey max have imbibed an amount of Chinese philosophy while in Hong Kong sufficient to make him champion of the Government of Pekin, but there are few other Englishmen, except the elite of the Anglo-Chinese faction of 1857, who, after what has occurred, will volunteer as advocates of the pinwall has arrived with over \$2,000,000 in gold, and policy of Pekin.

When the Plenipotentiaries arrived there were no Mandarians to receive them. No flags were flying on the forts; the embrasures were covered by mantalets; and no soldiers were visible on the ramparts. There were the mud forts, constructed with great skill; there were the booms; but there was no responsible officer to explain to the Euronean Ministers the reason of those strange preparations. Those among the Chinese who communicated with the messengers from the ships, stated that the works and the booms had been constructed by the common people, without authority. The only communication addressed to Mr. Bruce arrived at the eleventh hour. It was brought from the month of another river, where it was said the barbarians might land. But when the Americans inspected the place they found that the entrance was too shallow to permit of a near approach of their men of-war, and when a boat-party attempted to land, they were opposed by horse and foot. The Imperial Government not being represented at Take, or at all events, not being ostensibly represented, it has been naturally assumed that the Imperial Court was playing the childish game of opposing its allies by troops, whose acts it could disown, and in accordance with this interpretation, we find a rumor that the Taoutai of Shanghai had been commanded to inform Mr. Bruce that the attack on his ships was a "mistake, for which the Emperor expresses his sincere regret, that the Mandarins who committed the amicably." If this be true, it only affords another proof and sacred character of their errand. REVIEW OF THE WILMINGTON MARKET. FOR THE WEEK ENDING SEPTEMBER 29TH, 1859.

Rosin-We have no change of consequence to report in this article. The arrivals appear to be unusually light for my whiskers were of same character. Some three months is exceedingly small. There was a moderate business done | 1 name and style of W. B. TAR .- Has been brought in sparingly for some time past, and the market is almost bare. There is a fair enquiry from here and adjoining towns. Any use you may make of the shippers, and parcels would sell readily at quotations. Only BELF CATTLE-None worthy of note have been received, and the market is at present poorly supplied with beeves. There is a brisk enquiry from butchers, and for a prime ar-

> of sales we quote nominally at 51 to 64 cents per lb. for BARRELS-The market for empty Spirits Turpentine barrels continues without material alteration. The demand is light, and we note a moderate stock in first hands. We quote only small sales of second hand ones at \$1 50 to \$1

Corron-One small lot sold in the early part of the week any other season. at 111 cents for good middling; and another on Wednesday ket rules quiet at quotations in table. CORN MEAL-There is a fair enquiry for country ground,

COFFEE- The market is very well stocked with nearly all lar per bottle; the medium holds at least twenty per cent. descriptions, and merely a retail business has been done during the week. We refer to our table for store rates. FISH-The arrivals of Mullets have been rather better during the past week, and there is now a moderate supply in store. About 374 bbls. received and sold at \$5 50 to \$5 624

Mackerel, &c.

FLOUR-Since our last the market has ruled quiet, and transactions have been principally in the small way from store. On Monday last a lot of 42 bbls. changed hands at \$5 80 for superfine, being a decline of 20 cents on previous quotations; holders generally, however, are unwilling to take this figure, and are asking \$6, while sellers show little or no disposition to operate. The arrivals for the week have been quite small, though we note a moderate supply remaining in first hands. We quote at \$5 80 to \$6 for superfine and \$6 to \$6 25 for family.

GRAIN-In the CORN market we have nothing to report in the way of sales. The receipts have been meagre for the past two or three weeks, it consequence of which the supply in dealers hands has become somewhat reduced; it is. however, fully adequate for present wants, as there is only a light demand. A cargo of 1300 bushels was received on Monday, which has gone into store. We quote at 85 to 90 cents per bushel-the latter price for prime quality .--- OATS -None received for a few weeks, and the supply in dealers' hands is rather small; there is a moderate demand, and a cargo or two would sell at about quotations in table .---PEAS .- In Cow we have nothing new to report. No late receipts, but we notice a moderate supply in dealers' hands, and the market rules quiet at 72 a 75 cents per bushel.-RICE.-Clean continues in moderate supply, and sells at 4 a 41 cents per lb., as in quantity.

HAY .- The market is rather poorly supplied with both Northern and Eastern, and we notice a moderate enquiry from dealers. No receipts during the week, and we refer to our table for quotations of last transactions.

LIME.-None received, and there is only a light stock on market. Sells from store at \$1 05 to \$1 10 per cask, in gantities to suit.

MOLASSES .- There is only a retail enquiry for this article, and the stock of Cuba on market is fully sufficient for present purposes. See table for prices, as in quantity and qual-

POTATOES .- Both Irish and sweet are in moderate stock. and rather dull of sale at quotations. See table. PROVISIONS-For N. C. cured Bacon there has been more enquiry during the past week, and in the absence of receipts worthy of note the stock in first hands has nearly all been worked off. We quote sales of several parcels at 112 to 12 cents for hog round, and 134 to 14 cents per lb for hams, as in quality-the market closing steady, with a moderate demand for retailing purposes. The receipts of Western cured have been meagre, and there is only a light supply on market. We note a moderate demand, and quote sales from store at 94 a 94 cents for shoulders, and 114 a 114 cents per lb. for sides, as in quantity. \_\_\_\_LARD-Nothing of consequence doing in this article. Demand light, and the supply of both N. C. and Western make is fully adequate for present wants. See table for prices .- PORK-The stock of Northern on market is rather small, and, under the advices

from abroad, prices have improved 50 cents to \$1 per bbl. on former quotations. See table for store rates. SALT .- We have nothing new to report in either description. The market is at present very well supplied with Liverpool ground, and there is merely a retail demand;last sales were at 924 a 95 cents, cash and 90 days. Selling from store and wharf at \$1 to \$1 10 per sack, as in quantity. No late arrivals of Alum, and the stock remaining on market is very light ;-sells from store at 25 cents per bushel. SHINGLES .- The market rules dull for both Common and Contract, as there is scarcely any demand. See table for

time past, scarcely enough arriving to keep the mills in operation, and we note a brisk demand. One raft sold a day or two since at \$0 00.

FREIGHTS .- There is a very small quantity of produce at present offering for shipment, and, notwithstanding the small number of vessels in port, the coastwise market rules decidedly dull. An advance of 5 cents per bbl. on naval stores has been obtained in some instances, owing to the scarcity of vessels, but quotations in table are about the true state of the market.

CHARLOTTEE, Sept. 27 .- The market is very quiet, and we hear of nothing doing except a few transactions in white Wheat, which we quote at 95 a \$1 per bushel.

NEWBERN, Sept. 28.—Turpentine—Sales yesterday of 130 bbls. at \$3 22½ for virgin and yellow dip.
Flour—Sales of 20 bbls. N. C. at \$6 10 for superfine and curred. \*\* For virgin or mixed Turpentine a deduction of one-fifth or more is made on the price of yellow dip, ac- | \$7 50 for family, which indicates a decline since our last Nothing reported in other articles.

market unchanged, according to the last sales. Maryland White Corn, for milling, at 95 a 96 cents per bushel, measurement; North Carolina mixed 88 a 90 cents per bushel. Groceries.—For Sugars and Coffee there has been an improvement in the demand with sales of the former of perhaps 100 hhds. in store lots. Cuba Muscovados ranging from 64 a 74 and Louisiana from 74 a 84. Of Coffee probably some 500 bags Rio of coastwise importation changed hands in lots at from 11 a 124. Oats-Without any arrivals; the last sales were effected at 44 cents per bushel.

Rice-The market remains in a comparatively unsettled state; with the old crop nearly exhausted, and with consequently light receipts, the demand is confined to but a few purchasers. The receipts of the week, amounting to 731 tierces, comprised about 200 bbls. of the new crop, near 75 tierces, having been received the week previous, and sold as reported in our last, at \$3 per 100 tierces; the remainder sold at 34, and prices for the old ranged from \$34 to \$34, the bulk of the sales at \$31 to \$38.
